

The Indiana "No-Call Rule" is the best one I have ever heard or participated in. I work at home and so did my wife with 7 phone lines we had an unbelievable number of unwanted solicitations literally hundreds of calls. So much so that the only way to get quiet was to turn off the ringers on the phones. After we signed up for no call it is finally quiet again in this house. We had to have family call us on our cell phones otherwise we couldnt hear from them. Please do not water down the no call rule as if you do there isnt a point in having a rule if everyone is exempt. I like Indiana's no call rules please leave it the way it is now.
